

```
class MyApp extends StatelessWidget {  
  const MyApp({super.key});  
  
  // This widget is the root of your application.  
  @override  
  Widget build(BuildContext context) {  
    return MaterialApp(  
  
      title: 'Maria Lara Silva de Agrela',  
      theme: ThemeData(  
  
        // This is the theme of your application.  
        //  
        // TRY THIS: Try running your application with "flutter run". You'll see  
        // the application has a blue toolbar. Then, without quitting the app,  
        // try changing the seedColor in the colorScheme below to Colors.green  
        // and then invoke "hot reload" (save your changes or press the "hot  
        // reload" button in a Flutter-supported IDE, or press "r" if you used  
        // the command line to start the app).  
        //  
        // Notice that the counter didn't reset back to zero; the application
```
